LUNCH & LEARN SEMINAR

Learn about the extensive range of bioseparation products and custom services available from ProMetic BioSciences Ltd.

Just select two to three topics of interest and contact us today to book a Lunch & Learn Seminar in your area.

OUR EXPERTISE

Since 1987 ProMetic BioSciences Ltd (PBL) has been pioneering design, development and manufacture of affinity purification technology for lab-scale and industrial-scale bioprocessing.

With over 20 years experience in the development of affinity products and design of new custom adsorbents, PBL is a world leader in its field.

PBL offers an extensive range of off-the-shelf bioseparation products for the recovery and purification of biologicals as well as purification services including bespoke custom designed chromatography adsorbents, process development and *in silico* modelling applications.

KEY BENEFITS

- Extensive range of chromatography products
- Custom designed chromatography adsorbents
- Experts in adsorbent development & downstream process optimisation
- Proven Mimetic Ligand™ Technology
- Cost effective products/services
- Over 20 years experience
- Dedicated professional service
- ISO 9001 accredited standard
- Established manufacturing facilities
- Full technical support & in-house training

What is the Lunch & Learn Seminar?

The Lunch & Learn Seminar provides an informal environment to meet our team of experts and discuss a range of topics regarding our products and services.

The Lunch & Learn Seminar is a free event held in a location close to you, takes approximately one hour and includes; a lunch, presentations on **2 to 3** selected topics and an open forum to ask questions.

So contact us today to book a Lunch & Learn Seminar in your area and feel free to forward to a friend who may be interested in attending.

How do I book a Lunch & Learn Seminar?

1. Select **2 to 3** topics (in total) from the list.
2. Contact us by any of the options below (see overleaf for contact information):
 - **OPTION 1 -**
Fill out the detachable booking form and return by post or fax
 - **OPTION 2 -**
Phone or email the booking information to the PBL Representative

Who should attend?

Scientists & Managers interested or involved in Downstream Processing.

What Topics are available? (Tick up to 3 boxes)

TOPICS

1. **NEW** Albumin & Albumin-Fusion Proteins
2. Antibody & Antibody Fragments
3. **NEW** Bio-contaminant Removal
4. Plasma Protein Purification
5. Other

Option 1 -

Option 2 -

Please do not hesitate to contact us if you would like more information on any other topics, either bioseparation products or custom services, available at PBL.
